SAFETY DATA SHEET

1. Identification

Product identifier DONN® AX™ Acoustical Suspension System

Other means of identification

SDS number 42000003001

Additional System DONN® Aluminum Wall Moldings

Components:

Synonyms Ceiling Suspension System, Ceiling Tile Grid

Recommended use Interior use.

Recommended restrictions Use in accordance with manufacturer's recommendations.

Manufacturer / Importer / Supplier / Distributor information

USG Interiors, LLC Company name **Address** 550 West Adams Street Chicago, Illinois 60661-3637

1-800-874-4968

Telephone www.usg.com Website 1-800-507-8899 **Emergency phone number**

2. Hazard(s) identification

Physical hazards Not classified. **Health hazards** Not classified. **OSHA** defined hazards Not classified.

Label elements

None. **Hazard symbol** Signal word None. **Hazard statement** None.

Precautionary statement

Prevention Observe good industrial hygiene practices. Response Get medical attention/advice if you feel unwell.

Not classified.

Storage Store as indicated in Section 7.

Disposal Dispose of in accordance with local, state, and federal regulations.

Hazard(s) not otherwise

classified (HNOC)

Supplemental information

Aluminum products as sold do not present an inhalation, ingestion, or skin hazard. However, individual customer processes, (such as welding, sawing, brazing, grinding, abrasive blasting, and machining) may result in the formation of fumes, dust (combustible or otherwise), and/or particulate that may present a variety of health hazards. Molten aluminum is also hazardous.

3. Composition/information on ingredients

Mixtures

Chemical name	CAS number	%
Aluminum	7429-90-5	> 95
Manganese	7439-96-5	≤ 1.5

Composition comments This product is composed of an aluminum alloy which contains up to 1.5% manganese. The

following list identifies additional elements which may exist in aluminum or which may comprise

compounds present in aluminum: copper, iron, silicon, zinc.

4. First-aid measures

Inhalation Due to the physical nature of this product, inhalation is unlikely. There are no known health effects

due to inhalation.

Skin contact Edges and notches (where present) may be sharp and can cut skin. Cuts or abrasions should be

treated promptly with thorough cleansing of the affected area. Seek medical attention for severe

cuts or abrasions.

Eye contact Sharp edges and notches (where present) may cause cuts and irritation. If eye is cut or otherwise

damaged, seek medical attention.

Ingestion Due to the physical nature of this product, ingestion is unlikely. There are no known health effects

due to ingestion.

Most important

symptoms/effects, acute and

delayed

Under normal conditions of intended use, this material does not pose a risk to health.

Indication of immediate medical attention and special

treatment needed

Provide general supportive measures and treat symptomatically.

Use Class D extinguishing agents on fines, chips, dust, or molten metal.

General information Ensure that medical personnel are aware of the material(s) involved.

Not a fire hazard.

5. Fire-fighting measures

Suitable extinguishing media

Unsuitable extinguishing

media

Specific hazards arising from

the chemical

Special protective equipment and precautions for firefighters

Fire-fighting equipment/instructions

Specific methods

fires involving molten metal. These fire extinguishing agents will react with burning metal.

Selection of respiratory protection for firefighting: follow the general fire precautions indicated in the workplace. Self-contained breathing apparatus and full protective clothing must be worn in case of fire.

DO NOT use halogenated extinguishing agents on fines, chips, or dust. DO NOT use water for

Use standard firefighting procedures and consider the hazards of other involved materials.

This product is non-combustible in bulk form. For fires involving fines, chips, dust, or molten aluminum use Class D extinguishing agents. DO NOT use water or other liquids, or halogenated extinguishing agents.

6. Accidental release measures

Personal precautions, protective equipment and emergency procedures

See Section 8 of the SDS for Personal Protective Equipment.

Methods and materials for containment and cleaning up

No specific clean-up procedure noted. For waste disposal, see Section 13 of the SDS.

Environmental precautions

None.

7. Handling and storage

Precautions for safe handling

Edges and notches (where present) may be sharp and can cut skin. Unload from package with caution and handle carefully. Observe good industrial hygiene practices.

It is a good industrial hygiene practice to minimize skin contact. For prolonged or repeated skin

Conditions for safe storage, including any incompatibilities

Falling pieces can pose an injury hazard. Do not store open boxes or individual pieces above chest level. Store away from incompatible materials.

8. Exposure controls/personal protection

Occupational exposure limits

No exposure limits noted for ingredient(s).

Biological limit values

No biological exposure limits noted for the ingredient(s).

Appropriate engineering

controls

Ventilation is not normally required.

Individual protection measures, such as personal protective equipment

Eye/face protection Wear approved safety goggles.

Skin protection

Hand protection

contact use suitable protective gloves.

Other Normal work clothing (long sleeved shirts and long pants) is recommended.

Respiratory protection Not necessary under normal conditions.

Thermal hazards None.

General hygiene considerations

Handle in accordance with good industrial hygiene and safety practices.

9. Physical and chemical properties

Appearance

Physical state Solid. **Form** Metal tees Color Flat white.

Odor Low to no odor. **Odor threshold** Not applicable. pН Not applicable.

Melting point/freezing point 1200 °F (648.89 °C) (base metal (aluminum))

Initial boiling point and boiling

range

Not applicable.

Not applicable. Flash point **Evaporation rate** Not applicable. Flammability (solid, gas) Not applicable. Upper/lower flammability or explosive limits

Flammability limit - lower

Not applicable.

(%)

Flammability limit - upper

Not applicable.

(%)

Explosive limit - lower (%) Not applicable. Explosive limit - upper (%) Not applicable. Vapor pressure Not applicable. Vapor density Not applicable. 2.7 (H2O = 1)Relative density

Solubility(ies) Not soluble in water.

Partition coefficient (n-octanol/water)

Not applicable.

Auto-ignition temperature Not applicable. Not applicable. **Decomposition temperature**

Viscosity

Not applicable.

Other information

Bulk density 170 lb/ft3 VOC (Weight %) 0 %

10. Stability and reactivity

Reactivity The product is stable and non reactive under normal conditions of use, storage and transport.

Chemical stability Material is stable under normal conditions. Possibility of hazardous Hazardous polymerization does not occur.

reactions

Conditions to avoid Contact with incompatible materials.

Incompatible materials Strong oxidizing agents.

Hazardous decomposition

products

No hazardous decomposition products are known.

11. Toxicological information

Information on likely routes of exposure

Not likely, due to the form of the product. Ingestion Inhalation Not likely, due to the form of the product.

Skin contact Edges and notches (where present) may be sharp and can cut skin. Under normal conditions of

intended use, this product does not pose a skin hazard.

Eye contact Contact with sharp edges and notches (where present) may cut the eye and cause eye damage.

Symptoms related to the physical, chemical and toxicological characteristics Sharp edges and notches (where present) may cause cuts and irritation.

Information on toxicological effects

Acute toxicity

Skin corrosion/irritation Edges and notches (where present) may be sharp and can cut skin.

Serious eye damage/eye

irritation

Contact with sharp edges and notches (where present) may cut the eye and cause eye damage.

No data available. Respiratory sensitization

Skin sensitization This product is not expected to cause skin sensitization.

Germ cell mutagenicity Not expected to be mutagenic.

Carcinogenicity Not expected.

Not expected to be a reproductive hazard. Reproductive toxicity No data available, but none expected. Specific target organ toxicity -

single exposure

Specific target organ toxicity -

repeated exposure

No data available, but none expected.

Aspiration hazard Due to the physical form of the product it is not an aspiration hazard.

Further information No other specific acute or chronic health impact noted.

12. Ecological information

Ecotoxicity Not expected to be harmful to aquatic organisms.

Persistence and degradability No data is available on the degradability of this product.

Bioaccumulative potential Bioaccumulation is not expected.

Mobility in soil Not available.

Other adverse effects No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation

potential, endocrine disruption, global warming potential) are expected from this component.

13. Disposal considerations

Disposal instructions The metals contained in this product are recyclable. Dispose in accordance with applicable

federal, state, and local regulations.

Local disposal regulations Dispose of in accordance with local regulations.

Hazardous waste code Not regulated.

Waste from residues / unused

products

Dispose of in accordance with local regulations.

Contaminated packaging Dispose of in accordance with local regulations.

14. Transport information

Not regulated as a hazardous material by DOT.

IATA

Not regulated as a dangerous good.

IMDG

Not regulated as a dangerous good.

Transport in bulk according to Annex II of MARPOL 73/78 and Not applicable.

the IBC Code
