DURABILITY

Manufactured with a durable, abuse-resistant surface to resist scrapes and abrasions, making them perfect for areas where access to the ceiling plenum is frequent.

INTEGRAL COLOR

The integrally color-coordinated substrate masks nicks and scrapes so blemishes fade, reducing the potential for repairs and lowering the life-cycle cost of the ceiling.

BALANCED ACOUSTICS

Achieve balanced acoustics and sound control with NRC values up to 0.75 and CAC values as high as 40 to manage noise and improve acoustical comfort, privacy, and productivity.

ECOBLEUEPRINT™

USG Frost™, Glacier™, and Sandrift™ panels come with a suite of sustainability documentation for each product, including: EPDs, HPDs, Declare Labels, and VOC Emissions Certificates.

COLOR SELECTION

Creating a perfect backdrop to any specialty product, these panels are the ideal choice for integral colors that provide design flexibility and strengthen brand image.

MADE IN THE USA

USG Frost™, Glacier™, and Sandrift™ panels are Made in the USA with domestic and imported ingredients.

USG Frost™ High-LR Acoustical Panels with ClimaPlus™ Performance, and USG Donn® Brand Identitee® DXI™ Acoustical Suspension System
