

# SAFETY DATA SHEET

# 1. Identification

Product identifier	USG® Radar™ High NRC Acoustical Ceiling Panels	
Other means of identification		
SDS number	41263270003	
Additional Products	Radar™ High-CAC, High-NRC, and Radar™ Open Plan Acoustical Ceiling Panels	
Synonyms	Ceiling Tiles, Water Felted Mineral Fiber Ceiling Panels/Tiles	
Recommended use	Interior use.	
Recommended restrictions	Use in accordance with manufacturer's recommendations.	
Manufacturer/Importer/Supplier/Distributor information		

Company name	USG Interiors, LLC
Address	550 West Adams Street
	Chicago, Illinois 60661-3637
Telephone	1-800-874-4968
Website	www.usg.com
Emergency phone number	1-800-507-8899
Website	www.usg.com

# 2. Hazard(s) identification

Physical hazards	Not classified.	
Health hazards	Carcinogenicity	Category 1A
	Specific target organ toxicity, repeated exposure	Category 2 (Lung)
OSHA defined hazards	Not classified.	

**OSHA** defined hazards

Label elements

Signal word	Danger
Hazard statement	May cause cancer. May cause damage to organs (lung) through prolonged or repeated exposure by inhalation.
Precautionary statement	
Prevention	Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Do not breathe dust. Wear protective gloves/protective clothing/eye protection/face protection.
Response	If exposed or concerned: Get medical advice/attention.
Storage	Store locked up.
Disposal	Dispose of in accordance with local, state, and federal regulations.
Hazard(s) not otherwise classified (HNOC)	None known.

# 3. Composition/information on ingredients

Mixtures		
Chemical name	CAS number	%
Perlite	93763-70-3	< 35
Slag wool fiber	N/A	< 35
Cellulose	9004-34-6	< 15
Kaolin	1332-58-7	< 15

Starch	9005-25-8 <	10
Limestone	1317-65-3 <	3
Impurities		
Chemical name	CAS number %	5
Crystalline silica (Quartz)	14808-60-7 ≤	2
Composition comments	All concentrations are in percent by weight unless ingredient is a gas.	
	Raw materials in this product contain respirable crystalline silica as an impurity. The percent of respirable crystalline silica found in this product is $\leq 2\%$ . Exposures to respirate the normal use of this product must be determined by workpl testing.	spirable
	Raw materials and/or coatings in this product contain small amounts of titanium diox been classified as possibly carcinogenic to humans by the International Agency for I Cancer (IARC). However, per IARC "no significant exposure to primary particles of t is thought to occur during the use of products in which titanium dioxide is bound to c such as in paints" (1). See Section 16 for further information.	Research o itanium dio
	European Commission (EC) Annex number for Slag Wool Fibers: 650-016-00-2	
4. First-aid measures		
Inhalation	Dust irritates the respiratory system, and may cause coughing and difficulties in brea injured person into fresh air and keep person calm under observation. Get medical a symptoms persist.	
Skin contact	Contact with dust: Rinse area with plenty of water. Get medical attention if irritation or persists.	develops o
Eye contact	Dust in the eyes: Do not rub eyes. Flush thoroughly with water. If irritation occurs, g assistance.	et medical
ngestion	Rinse mouth. Get medical attention if symptoms occur.	
Most important symptoms/effects, acute and delayed	Under normal conditions of intended use, this material does not pose a risk to health irritate throat and respiratory system and cause coughing.	n. Dust may
Indication of immediate medical attention and special treatment needed	Provide general supportive measures and treat symptomatically.	
General information	Ensure that medical personnel are aware of the material(s) involved.	
5. Fire-fighting measures		
Suitable extinguishing media	Use fire-extinguishing media appropriate for surrounding materials.	
Jnsuitable extinguishing nedia	Not applicable.	
Specific hazards arising from the chemical	Not a fire hazard.	
Special protective equipment and precautions for firefighters	Selection of respiratory protection for firefighting: follow the general fire precautions the workplace. Self-contained breathing apparatus and full protective clothing must case of fire.	
Fire fighting equipment/instructions	Use standard firefighting procedures and consider the hazards of other involved ma	terials.
Specific methods	Cool material exposed to heat with water spray and remove it if no risk is involved.	
General fire hazards	No unusual fire or explosion hazards noted.	
6. Accidental release meas	sures	
Personal precautions, protective equipment and emergency procedures	See Section 8 of the SDS for Personal Protective Equipment.	
Methods and materials for containment and cleaning up	No specific clean-up procedure noted. For waste disposal, see Section 13 of the SD	S.
Environmental precautions	Avoid discharge to drains, sewers, and other water systems.	

# 7. Handling and storage

Precautions for safe handling

Use work methods which minimize dust production. Avoid inhalation of dust and contact with skin and eyes. Wear appropriate personal protective equipment. Wash hands after handling. Observe good industrial hygiene practices.

Conditions for safe storage, including any incompatibilities

Store away from incompatible materials.

# 8. Exposure controls/personal protection

# **Occupational exposure limits**

# U.S. - OSHA

Components	Туре	Value	Form
Slag wool fiber (CAS N/A)	TWA	5 mg/m3	Fiber, respirable (diameter ≤ 3.5 µm and length ≥ 10 µm)
		15 mg/m3	Fiber, total

## **US. NIOSH: Pocket Guide to Chemical Hazards**

Components	Туре	Value	Form
		10 mg/m3	Total
Impurities	Туре	Value	Form
Crystalline silica (Quartz) (CAS 14808-60-7)	TWA	0.05 mg/m3	Respirable dust.
Biological limit values	No biological exposure limits noted for the	e ingredient(s).	
Appropriate engineering controls	Provide sufficient ventilation for operations causing dust formation. Observe occupational exposure limits and minimize the risk of exposure. Cut and trim with a utility knife or hand saw to minimize dust levels. If a router is used it must have a dust collection system. Operations such as power cutting, power kerfing or using compressed air to remove dust are not recommended (2). See Section 16 for further information.		
Individual protection measures	s, such as personal protective equipment		
Eye/face protection	Wear approved safety goggles.		
Skin protection			
Hand protection	It is a good industrial hygiene practice to r contact use suitable protective gloves.	ninimize skin contact. For p	prolonged or repeated skin
Other	Normal work clothing (long sleeved shirts	and long pants) is recomm	ended.
Respiratory protection	If engineering controls do not maintain air limits (where applicable) or to an acceptal been established), an approved respirator purifying respirator as needed to control e determine respirator selection, use, and li for uncontrolled releases or when air purif respirator protection program requirement use.	ble level (in countries where must be worn. Use a NIOS xposure. Consult with resp mitations. Use positive pres ying respirator limitations n	e exposure limits have not SH/MSHA approved air irator manufacturer to ssure, air-supplied respirator nay be exceeded. Follow
Thermal hazards	None.		
General hygiene considerations	Always observe good personal hygiene m and before eating, drinking, and/or smokir equipment separately from regular wash.	ng. Routinely wash work clo	othing and protective

# 9. Physical and chemical properties

••••••••••••••••••••••••••••••••••••••	
Appearance	
Physical state	Solid.
Form	Panel.
Color	White or colored surface; beige/gray core.
Odor	Low to no odor.
Odor threshold	Not applicable.
рН	9
Melting point/freezing point	Not applicable.
Initial boiling point and boiling range	Not applicable.
Flash point	Not applicable.
Evaporation rate	Not applicable.
Flammability (solid, gas)	Not applicable.
Upper/lower flammability or exp	losive limits
Flammability limit - lower (%)	Not applicable.
Flammability limit - upper (%)	Not applicable.
Explosive limit - lower (%)	Not applicable.
Explosive limit - upper (%)	Not applicable.
Vapor pressure	Not applicable.
Vapor density	Not applicable.
Relative density	0.2 (H20=1)

Solubility(ies) Solubility (water)	Very low solubility in water.
Partition coefficient (n-octanol/water)	Not applicable.
Auto-ignition temperature	Not applicable.
Decomposition temperature	2200 °F (1204.4 °C) (Slag wool)
Viscosity	Not applicable.
Other information	
Bulk density	12 lb/ft3
VOC (Weight %)	N/A (solid)

# 10. Stability and reactivity

Reactivity	The product is stable and non reactive under normal conditions of storage and transport.
Chemical stability	Material is stable under normal conditions.
Possibility of hazardous reactions	Hazardous polymerization does not occur.
Conditions to avoid	Contact with incompatible materials.
Incompatible materials	Strong oxidizing agents.
Hazardous decomposition products	No hazardous decomposition products are known.

# 11. Toxicological information

# Information on likely routes of exposure

Inhalation	Inhalation of dusts may cause respiratory irritation.		
Skin contact	May cause irritation through mechanical abrasion.		
Eye contact	Direct contact with eyes may cause temporary irritation.		
Ingestion	Ingestion may cause irritation and stomach discomfort.		
Symptoms related to the physical, chemical and toxicological characteristics	Under normal conditions of intended use, this material does not pose a risk to health.		
Information on toxicological effe	cts		
Acute toxicity	Not expected to be a hazard un	der normal conditions of intended use.	
Skin corrosion/irritation	Prolonged skin contact may cause temporary irritation.		
Serious eye damage/eye irritation	Direct contact with eyes may cause temporary irritation.		
Respiratory or skin sensitization			
Respiratory sensitization	No data available, but none expected.		
Skin sensitization	This product is not expected to	cause skin sensitization.	
Germ cell mutagenicity	No data available, but none expected.		
Carcinogenicity	Repeated and prolonged exposures to high levels of respirable crystalline silica may cause cancer.		
IARC Monographs. Overall E	valuation of Carcinogenicity		
Crystalline silica (Quartz) ( NTP Report on Carcinogens	(CAS 14808-60-7)	1 Carcinogenic to humans.	
Crystalline silica (Quartz) ( OSHA Specifically Regulated Not listed.	CAS 14808-60-7) I Substances (29 CFR 1910.10)	Known To Be Human Carcinogen. 01-1050)	
Reproductive toxicity	No data available, but none evr	nerted	
Specific target organ toxicity -	No data available, but none expected. No data available, but none expected.		
single exposure		Jecleu.	
Specific target organ toxicity - repeated exposure	May damage lung tissue through repeated and prolonged exposure to high levels of respirable crystalline silica particles.		
Aspiration hazard	Due to the physical form of the product it is not an aspiration hazard.		

**Chronic effects** 

Prolonged and routine inhalation of high levels of respirable crystalline silica particles can lead to the lung disease known as silicosis. Some studies show excess numbers of cases of scleroderma, connective tissue disorders, lupus, rheumatoid arthritis, chronic kidney diseases and end-stage kidney disease in workers exposed to respirable crystalline silica. Pre-existing skin and respiratory conditions including dermatitis, asthma and chronic lung disease might be aggravated by exposure. Occupational exposure to respirable dust and respirable crystalline silica should be monitored and controlled.

# 12. Ecological information

Ecotoxicity	The product components are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent releases can have a harmful or damaging effect on the environment.
Persistence and degradability	No data is available on the degradability of this product.
Bioaccumulative potential	Bioaccumulation is not expected.
Mobility in soil	No data available.
Other adverse effects	None expected.

# 13. Disposal considerations

Disposal instructions	Dispose in accordance with applicable federal, state, and local regulations. Recycle responsibly.
Local disposal regulations	Dispose of in accordance with local regulations.
Hazardous waste code	Not regulated.
Waste from residues / unused products	Dispose of in accordance with local regulations.
Contaminated packaging	Dispose of in accordance with local regulations.

# 14. Transport information

### DOT

Not regulated as dangerous goods.

#### IATA

Not regulated as dangerous goods.

#### IMDG

Not regulated as dangerous goods.

**Transport in bulk according to Annex II of MARPOL 73/78 and** 

the IBC Code

# 15. Regulatory information

US federal regulations

This product is a "Hazardous Chemical" as defined by the OSHA Hazard Communication Standard, 29 CFR 1910.1200.

## TSCA Section 12(b) Export Notification (40 CFR 707, Subpt. D)

Not regulated.

OSHA Specifically Regulated Substances (29 CFR 1910.1001-1050)

Not listed.

CERCLA Hazardous Substance List (40 CFR 302.4) Not listed.

#### Superfund Amendments and Reauthorization Act of 1986 (SARA)

Hazard categories

Immediate Hazard - No Delayed Hazard - Yes Fire Hazard - No Pressure Hazard - No Reactivity Hazard - No

#### SARA 302 Extremely hazardous substance

Not listed.

SARA 311/312 Hazardous Yes chemical

#### SARA 313 (TRI reporting) Not regulated.

#### Other federal regulations

### Clean Air Act (CAA) Section 112 Hazardous Air Pollutants (HAPs) List

Not regulated.

### Clean Air Act (CAA) Section 112(r) Accidental Release Prevention (40 CFR 68.130)

Not regulated.

Safe Drinking Water Act Not regulated. (SDWA)

### **US state regulations**

### **US. Massachusetts RTK - Substance List**

Cellulose (CAS 9004-34-6) Crystalline silica (Quartz) (CAS 14808-60-7) Kaolin (CAS 1332-58-7) Limestone (CAS 1317-65-3) Perlite (CAS 93763-70-3) Starch (CAS 9005-25-8)

### US. New Jersey Worker and Community Right-to-Know Act

Cellulose (CAS 9004-34-6) Crystalline silica (Quartz) (CAS 14808-60-7) Kaolin (CAS 1332-58-7) Limestone (CAS 1317-65-3) Perlite (CAS 93763-70-3)

#### US. Pennsylvania Worker and Community Right-to-Know Law

On inventory (yes/no)\*

No

Further information	<ul> <li>Slag Wool Fiber: Large morbidity and mortality studies of both European and North American mineral wool manufacturing workers have been conducted. These studies have found no significant association of non-malignant (i.e. fibrosis) or malignant (i.e., lung cancer or mesothelioma) lung disease and exposures to slag wool fibers and have not established a causal relationship between exposure and non-malignant or malignant diseases.</li> <li>In 2001, the International Agency for Research on Cancer (IARC) assigned slag wool fiber to the Group 3 category ["not classifiable as to carcinogenicity to humans"].</li> <li>The synthetic mineral fiber used in this product is exonerated from classification as a carcinogen in accordance with Note Q in the EU Commission Directive 97/69/EC.</li> <li>Crystalline silica: Raw materials in this product may contain respirable crystalline silica as an impurity. Exposures to respirable crystalline silica are not expected during the normal use of this product. However, actual levels must be determined by workplace hygiene testing. Industrial hygiene testing by RJ Lee Group showed that cutting with a utility knife or a router equipped with a dust collection system did not produce airborne respirable crystalline in exceedance of OSHA PELs. However, cutting with a power saw, even with a dust collection system in place, did produce some exceedances. Prolonged and repeated exposure to airborne free respirable crystalline silica can result in lung disease (i.e., silicosis) and/or lung cancer.</li> <li>Titanium dioxide: Raw materials and/or coatings in this product contain small amounts of titanium dioxide is possibly carcinogenic to humans (Group 2B) based on inadequate evidence in humans and sufficient evidence in experimental animals. This conclusion relates to long-term inhalation exposure to high concentrations of pigmentary (powdered) or ultrafine titanium dioxide. However, no significant exposure to primary particles of titanium dioxide is thought to occur during the use of pro</li></ul>
