

# SAFETY DATA SHEET

## 1. Identification

Website

Product identifier	SHEETROCK <sup>®</sup> Brand Gypsum Liner Panels	
Other means of identification		
SDS number	5400000009	
Synonyms	Gypsum Panels, Drywall, Plasterboard, Wallboard	
Recommended use	Interior use.	
<b>Recommended restrictions</b>	Use in accordance with manufacturer's recommendations.	
Manufacturer / Importer / Supplie	er / Distributor information	
Company name	United States Gypsum Company	
Address	550 West Adams Street Chicago, Illinois 60661-3637	
Telephone	1-800-874-4968	

www.usg.com

## 2. Hazard(s) identification

Emergency phone number 1-800-507-8899

. ,	
Physical hazards	Not classified.
Health hazards	Not classified.
OSHA defined hazards	Not classified.
Label elements	
Hazard symbol	None.
Signal word	None.
Hazard statement	None.
Precautionary statement	
Prevention	Observe good industrial hygiene practices.
Response	Get medical attention/advice if you feel unwell.
Storage	Store as indicated in Section 7.
Disposal	Dispose of in accordance with local, state, and federal regulations.
Hazard(s) not otherwise classified (HNOC)	Not classified.

## 3. Composition/information on ingredients

Mixtures		<b></b>	0/
Chemical name		CAS number	%
Calcium sulfate dihydrate (alternative CAS 10101-41	-4)	13397-24-5	≥ 85
Cellulose		9004-34-6	< 5
Kaolin		1332-58-7	< 5
Composition comments	All concentrations are in percent by weight unless i	ingredient is a gas.	
	All concentrations are in percent by weight unless in The gypsum used to manufacture these panels cor 0.56 percent by weight, depending on source, as in hygiene laboratory testing using both personal and respirable crystalline silica when cutting the product saw. Good work practices which minimize the extent actual employee exposure must be determined by	ntains respirable crystal ndicated by bulk samplin area sampling measur at by "score and snap," n nt of dust generation sh	ng methods. Indust ed no detectable rotary saw, or circul iould be followed, a
Composition comments 4. First-aid measures	The gypsum used to manufacture these panels cor 0.56 percent by weight, depending on source, as ir hygiene laboratory testing using both personal and respirable crystalline silica when cutting the product saw. Indust ed no detectable rotary saw, or circul iould be followed, a
	The gypsum used to manufacture these panels cor 0.56 percent by weight, depending on source, as ir hygiene laboratory testing using both personal and respirable crystalline silica when cutting the product saw. Good work practices which minimize the extern	ntains respirable crystal ndicated by bulk samplin area sampling measur to by "score and snap," r nt of dust generation sh workplace industrial hy se coughing and difficult	ng methods. Indust ed no detectable otary saw, or circul ould be followed, a giene testing. ties in breathing. Mo

Eye contact	Dust in the eyes: Do not rub eyes. Flush thoroughly with water. If irritation occurs, get medical assistance.
Ingestion	Rinse mouth. Get medical attention if symptoms occur.
Most important symptoms/effects, acute and delayed	Under normal conditions of intended use, this material does not pose a risk to health. Dust may irritate throat and respiratory system and cause coughing.
Indication of immediate medical attention and special treatment needed	Provide general supportive measures and treat symptomatically.
General information	Ensure that medical personnel are aware of the material(s) involved.
5. Fire-fighting measures	
Suitable extinguishing media	Use fire-extinguishing media appropriate for surrounding materials.
Unsuitable extinguishing media	Not applicable.
Specific hazards arising from the chemical	Not a fire hazard.
Special protective equipment and precautions for firefighters	Selection of respiratory protection for firefighting: follow the general fire precautions indicated in the workplace. Self-contained breathing apparatus and full protective clothing must be worn in case of fire.
Fire-fighting equipment/instructions	Use standard firefighting procedures and consider the hazards of other involved materials.
Specific methods	Cool material exposed to heat with water spray and remove it if no risk is involved.
6. Accidental release meas	sures
Personal precautions, protective equipment and emergency procedures	See Section 8 of the SDS for Personal Protective Equipment.
Methods and materials for containment and cleaning up	No specific clean-up procedure noted. For waste disposal, see Section 13 of the SDS.
Environmental precautions	Avoid discharge to drains, sewers, and other water systems.
7. Handling and storage	
Precautions for safe handling	Use work methods which minimize dust production. Avoid inhalation of dust and contact with skin and eyes. Wear appropriate personal protective equipment. Wash hands after handling. Observe good industrial hygiene practices. When moving board with a forklift or similar equipment, it is essential that the equipment be rated capable of handling the loads. The forks should always be long enough to extend completely through the width of the load. Fork spacing between supports should be one half the length of the panels or base being handled so that a maximum of 4' extends beyond the supports on either end. Follow traditional building practices; such as management of water away from the interior of the structure to avoid the growth of mold, mildew and fungus. Remove any building products suspected of being exposed to sustained moisture and considered conducive to mold growth from the ide dist.

**Conditions for safe storage, including any incompatibilities** Store in a cool, dry, well-ventilated place. Store away from incompatible materials. Protect product from physical damage. Protect from weather and prevent exposure to sustained moisture. Gypsum Association literature (GA-801-07) recommends storing board flat to avoid damaging edges, warping the board and the potential safety hazards of the board falling over. However, in other situations, storing the board flat may cause a tripping hazard or exceed floor limit loads. If stacking board vertically, leave at least 4 inches from the wall to decrease the risk of falling board and no more than 6 inches to avoid too much lateral weight against the wall.

the job site. Gypsum panels are very heavy, awkward loads posing the risk of severe back injury.

#### 8. Exposure controls/personal protection

#### Occupational exposure limits

US. OSHA Table Z-1 Limits for Air Contaminants (29 CFR 1910.1000)

Use proper lifting techniques.

Components	Туре	Value	Form
Calcium sulfate dihydrate (alternative CAS 10101-41-4) (CAS 13397-24-5)	PEL	5 mg/m3	Respirable fraction.
Cellulose (CAS 9004-34-6)	PEL	15 mg/m3 5 mg/m3 15 mg/m3	Total dust. Respirable fraction. Total dust.

### US. OSHA Table Z-1 Limits for Air Contaminants (29 CFR 1910.1000)

Kaolin (CAS 1332-58-7)	TWA	5 mg/m3	Respirable.
Raolin (CAS 1352-36-7)	TWA .	10 mg/m3	Total
logical limit values	No biological exposure limits noted for	U U	
propriate engineering htrols	Provide sufficient ventilation for operations causing dust formation. Observe occupational exposure limits and minimize the risk of exposure.		
ividual protection measures, Eye/face protection	such as personal protective equipm Wear approved safety goggles.	ent	
	wear approved safety goggies.		
Skin protection			
Hand protection	It is a good industrial hygiene practice to minimize skin contact. For prolonged or repeated skin contact use suitable protective gloves.		
Other	Normal work clothing (long sleeved shirts and long pants) is recommended.		
Respiratory protection	If engineering controls do not maintain airborne concentrations below recommended exposure limits (where applicable) or to an acceptable level (in countries where exposure limits have not been established), an approved respirator must be worn. Use a NIOSH/MSHA approved air purifying respirator as needed to control exposure. Consult with respirator manufacturer to determine respirator selection, use, and limitations. Use positive pressure, air-supplied respirator for uncontrolled releases or when air purifying respirator limitations may be exceeded. Follow respirator protection program requirements (OSHA 1910.134 and ANSI Z88.2) for all respirator use. Observe any medical surveillance requirements.		
Thermal hazards	None.		
neral hygiene ssiderations	Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants. Observe any medical surveillance requirements.		
Physical and chemical	properties		
	Bapar faced with gypour core		

# Appearance Paper faced with gypsum core.

Appearance	i aper laceu with gypsum coi
Physical state	Solid.
Form	Panel.
Color	Gray to off-white.
Odor	Low to no odor.
Odor threshold	Not applicable.
рН	6 - 8
Melting point/freezing point	Not applicable.
Initial boiling point and boiling range	Not applicable.

Flash point	Not applicable.	
Evaporation rate	Not applicable.	
Flammability (solid, gas)	Not applicable.	
Upper/lower flammability or expl	osive limits	
Flammability limit - lower (%)	Not applicable.	
Flammability limit - upper (%)	Not applicable.	
Explosive limit - lower (%)	Not applicable.	
Explosive limit - upper (%)	Not applicable.	
Vapor pressure	Not applicable.	
Vapor density	Not applicable.	
Relative density	2.32 (Gypsum) (H2O=1)	
Solubility(ies)	0.26 g/100 g (H2O)	
Partition coefficient (n-octanol/water)	Not applicable.	
Auto-ignition temperature	Not applicable.	
Decomposition temperature	2642 °F (1450 °C)	
Viscosity	Not applicable.	
Other information		
Bulk density	49 lb/ft <sup>3</sup>	
Particle size	Varies.	
VOC (Weight %)	0 %	

## 10. Stability and reactivity

Reactivity	The product is stable and non reactive under normal conditions of use, storage and transport.
Chemical stability	Material is stable under normal conditions.
Possibility of hazardous reactions	Hazardous polymerization does not occur.
Conditions to avoid	Contact with incompatible materials.
Incompatible materials	Strong oxidizing agents. Strong acids.
Hazardous decomposition products	Calcium oxides, carbon dioxide, and carbon monoxide.

## 11. Toxicological information

#### Information on likely routes of exposure

Ingestion	Not likely, due to the form of the product.	
Inhalation	Mechanical processing may generate dust. Gypsum dust has an irritant action on mucous membranes of the upper respiratory tract and eyes (1).	
Skin contact	Under normal conditions of intended use, this material does not pose a skin hazard. Gypsum was not found to be a skin irritant (2).	
Eye contact	Mechanical processing may generate dust. Direct contact with eyes may cause temporary irritation (1).	
Symptoms related to the physical, chemical and toxicological characteristics	Under normal conditions of intended use, this material does not pose a risk to health.	

#### Information on toxicological effects

Acute toxicity	Low hazard.		
Components	Species	Test Results	
Kaolin (CAS 1332-58-7)			
Acute			
Dermal			
LD50	Rat	> 5000 mg/kg	

Components	Species	Test Results	
Oral			
LD50	Rat	> 5000 mg/kg	
* Estimates for product may b	e based on additional compone	nt data not shown.	
Skin corrosion/irritation	Gypsum was not found to be	a skin irritant.	
Serious eye damage/eye irritation	Gypsum does not cause seric	Gypsum does not cause serious eye damage or irritation.	
Respiratory sensitization	No data available, but based on results from the skin sensitization study, calcium sulfate is not expected to be a respiratory sensitizer.		
Skin sensitization	Not a skin sensitizer (2).		
Germ cell mutagenicity	No evidence of mutagenic potential exists (3,4,5).		
Carcinogenicity	No evidence of carcinogenic	ootential exists (6).	
Reproductive toxicity	No evidence of reproductive toxicity exists (2).		
Specific target organ toxicity - single exposure	Not toxic to lung tissue.		
Specific target organ toxicity - repeated exposure	Not toxic to lung tissue (6).		
Aspiration hazard	Due to the physical form of th	e product it is not an aspiration hazard.	
Further information	Pre-existing skin and respirate might be aggravated by exposed	bry conditions including dermatitis, asthma and chronic lung disease sure.	

### 12. Ecological information

Ecotoxicity

The product components are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

Components		Species	Test Results		
Calcium sulfate dihydrate (alternative CAS 10101-41-4) (CAS 13397-24-5)					
Aquatic					
Fish	LC50	Fathead minnow (Pim	ephales promelas) >1970 mg/l, 96 hours		
Persistence and degradability		Not applicable for the salt of inorganic compounds. Calcium sulfate dissolves in water without undergoing chemical degradation.			
Bioaccumulative potential	Bioaccum	Bioaccumulation is not expected.			
Mobility in soil		Calcium sulfate has a low potential for adsorption to soil. If water is applied, gypsum dissolves and the calcium and sulfate ions are mobile and penetrate the subsoil (7).			
Other adverse effects	None expe	None expected.			

#### 13. Disposal considerations

Disposal instructions	Dispose in accordance with applicable federal, state, and local regulations. Recycle responsibly.
Local disposal regulations	Dispose of in accordance with local regulations.
Hazardous waste code	Not regulated.
Waste from residues / unused products	Dispose of in accordance with local regulations.
Contaminated packaging	Dispose of in accordance with local regulations.

### 14. Transport information

DOT

Not regulated as a hazardous material by DOT.

### ΙΑΤΑ

Not regulated as a dangerous good.

#### IMDG

Not regulated as a dangerous good.

Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code

#### the IBC Code

**US federal regulations**
