# SAFETY DATA SHEET

### 1. Identification

Product identifier	SHEETROCK® Brand Wall and Ceiling Spra	ay Texture - Unaggregated
Other means of identification		
SDS number	48000020006	
Synonyms	Spray texture	
Recommended use	Interior use.	
<b>Recommended restrictions</b>	Use in accordance with manufacturer's recom	mendations.
Manufacturer/Importer/Supplier/	Distributor information	
Company name	United States Gypsum Company	
Address	550 West Adams Street	
	Chicago, Illinois 60661-3637	
Telephone	1-800-874-4968	
Website	www.usg.com	
Emergency phone number	1-800-507-8899	
2. Hazard(s) identification		
Physical hazards	Not classified.	
Health hazards	Carcinogenicity	Category 1A
OSHA defined hazards	Not classified.	
Label elements		

	▼
Signal word	Danger
Hazard statement	May cause cancer.
Precautionary statement	
Prevention	Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Wear protective gloves/protective clothing/eye protection/face protection.
Response	If exposed or concerned: Get medical advice/attention.
Storage	Store locked up.
Disposal	Dispose of contents/container in accordance with local/regional/national/international regulations.
Hazard(s) not otherwise classified (HNOC)	None known.
Supplemental information	None.

### 3. Composition/information on ingredients

ixtures		
Chemical name	CAS number	%
Limestone	1317-65-3	> 85
Mica	12001-26-2	< 15
Attapulgite	12174-11-7	< 5
Bentonite	1302-78-9	< 5
Kaolin	1332-58-7	< 5
Perlite	93763-70-3	< 5

Starch	9005-25-8 < 5		
Impurities Chemical name	CAS number %		
Crystalline silica (Quartz)	14808-60-7 < 1		
Composition comments	All concentrations are in percent by weight.		
	Raw materials in this product contain respirable crystalline silica as an impurity. The weight percent of respirable crystalline silica found in this product is < 1%. Exposures to respirable crystalline silica during the normal use of this product must be determined by workplace hygie testing.		
4. First-aid measures			
Inhalation	Dust irritates the respiratory system, and may cause coughing and difficulties in breathing. Mo injured person into fresh air and keep person calm under observation. Get medical attention if symptoms persist.		
Skin contact	Contact with dust: Rinse area with plenty of water. Get medical attention if irritation develops of persists.		
Eye contact	Dust in the eyes: Do not rub eyes. Flush thoroughly with water. If irritation occurs, get medica assistance.		
Ingestion	Rinse mouth. Get medical attention if symptoms occur.		
Most important symptoms/effects, acute and delayed	Dust may irritate throat and respiratory system and cause coughing. Prolonged exposure may cause chronic effects.		
Indication of immediate medical attention and special treatment needed	Provide general supportive measures and treat symptomatically.		
General information	IF exposed or concerned: Get medical advice/attention. Ensure that medical personnel are aw of the material(s) involved.		
5. Fire-fighting measures			
Suitable extinguishing media	Use fire-extinguishing media appropriate for surrounding materials.		
Unsuitable extinguishing media	Not applicable.		
Specific hazards arising from the chemical	Not a fire hazard.		
Special protective equipment and precautions for firefighters	Selection of respiratory protection for firefighting: follow the general fire precautions indicated the workplace. Self-contained breathing apparatus and full protective clothing must be worn in case of fire.		
Fire fighting equipment/instructions	Use standard firefighting procedures and consider the hazards of other involved materials.		
Specific methods	Cool material exposed to heat with water spray and remove it if no risk is involved.		
General fire hazards	No unusual fire or explosion hazards noted.		
6. Accidental release meas	sures		
Personal precautions, protective equipment and emergency procedures	Use a NIOSH/MSHA approved respirator if there is a risk of exposure to dust/fume at levels exceeding the exposure limits. See Section 8 of the SDS for Personal Protective Equipment.		
Methods and materials for containment and cleaning up	Vacuum up the spilled material. Vacuums used for this purpose should be equipped with HEPA filters. Containers must be labeled. Collect in approved containers and seal securely. For waste disposal, see Section 13 of the SDS.		
Environmental precautions	Avoid discharge to drains, sewers, and other water systems.		
7. Handling and storage			
Precautions for safe handling	Obtain special instructions before use. Do not handle until all safety precautions have been re and understood. Minimize dust production when mixing, sanding, or opening and closing bags Avoid inhalation of dust. Wear appropriate personal protective equipment. Wash hands after handling. Observe good industrial hygiene practices and use appropriate lifting techniques.		
Conditions for safe storage, including any incompatibilities	Store in a cool, dry, well-ventilated place. Store away from incompatible materials. Avoid conta with acids, water, and moisture.		

### 8. Exposure controls/personal protection

Crystalline silica (Quartz) (CAS 14808-60-7)	TWA	0.05 mg/m3	Respirable dust.
Biological limit values	No biological exposure limits noted for the ing	redient(s).	
Exposure guidelines	Occupational exposure to nuisance dust (total should be monitored and controlled.	and respirable) and re	espirable crystalline silica
Appropriate engineering controls	Provide sufficient ventilation for operations can exposure limits and minimize the risk of expose		Observe occupational
Individual protection measures	, such as personal protective equipment		
Eye/face protection	Wear approved safety goggles.		
Skin protection Hand protection	It is a good industrial hygiene practice to minir contact use suitable protective gloves.	nize skin contact. For p	prolonged or repeated skin
Skin protection			
Other	Normal work clothing (long sleeved shirts and	long pants) is recomm	ended.
Respiratory protection	If engineering controls do not maintain airborne concentrations below recommended exposure limits (where applicable) or to an acceptable level (in countries where exposure limits have not been established), an approved respirator must be worn. Use a NIOSH/MSHA approved air purifying respirator as needed to control exposure. Consult with respirator manufacturer to determine respirator selection, use, and limitations. Use positive pressure, air-supplied respirator for uncontrolled releases or when air purifying respirator limitations may be exceeded. Follow respirator protection program requirements (OSHA 1910.134 and ANSI Z88.2) for all respirator use.		
Thermal hazards	None.		
General hygiene considerations	Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment separately from regular wash. Observe any medical surveillance requirements.		

## 9. Physical and chemical properties

Appearance	
Physical state	Solid.
Form	Powder.
Color	Gray to off-white.
Odor	Low to no odor.
Odor threshold	Not applicable.
рН	7 - 8.5
Melting point/freezing point	Not applicable. / 32 °F (0 °C)
Initial boiling point and boiling range	Not applicable.
Flash point	Not applicable.
Evaporation rate	Not applicable.
Flammability (solid, gas)	Not applicable.
Upper/lower flammability or exp	losive limits
Flammability limit - lower (%)	Not applicable.
Flammability limit - upper (%)	Not applicable.
Explosive limit - lower (%)	Not applicable.
Explosive limit - upper (%)	Not applicable.
Vapor pressure	Not applicable.
Vapor density	Not applicable.
Relative density	2 - 3 (H2O=1)
Solubility(ies)	
Solubility (water)	Soluble in water.

Partition coefficient (n-octanol/water)	Not applicable.
Auto-ignition temperature	Not applicable.
Decomposition temperature	Not applicable.
Viscosity	Not applicable.
Other information	
Bulk density	25 - 56.2 lb/ft³
Explosive properties	Not explosive.
Oxidizing properties	Not oxidizing.
VOC	0 g/l

### 10. Stability and reactivity

Reactivity	The product is stable and non-reactive under normal conditions of use, storage and transport.
Chemical stability	Material is stable under normal conditions.
Possibility of hazardous reactions	No dangerous reaction known under conditions of normal use.
Conditions to avoid	Contact with incompatible materials.
Incompatible materials	Acids. Crystalline silica in contact with powerful oxidizing agents, such as fluorine, chlorine trifluoride and oxygen difluoride, may cause fires. Crystalline silica will dissolve in hydrofluoric acid and produce a corrosive gas, silicon tetrafluoride.
Hazardous decomposition products	Above 1472°F (800°C) limestone (CaCO3) can decompose to lime (CaO) and release carbon dioxide (CO2).

### 11. Toxicological information

#### Information on likely routes of exposure

Inhalation	Inhalation of dusts may cause respiratory irritation. Prolonged and repeated exposure to airborne respirable crystalline silica can cause silicosis and/or lung cancer.
Skin contact	Under normal conditions of intended use, this product does not pose a skin hazard.
Eye contact	Direct contact with airborne particulates may cause temporary irritation.
Ingestion	Ingestion may cause irritation and stomach discomfort.
Symptoms related to the physical, chemical and toxicological characteristics	Dust may irritate eyes and mucous membranes of the nose, throat and upper respiratory system causing sneezing and/or coughing.

#### Information on toxicological effects

Acute toxicity			
	A cuto to	vicity	

Not expected to be acutely toxic.

Acute toxicity	Not expected to be acutely toxic.	
Components	Species	Test Results
Kaolin (CAS 1332-58-7)		
<u>Acute</u>		
Dermal		
LD50	Rat	> 5000 mg/kg
Inhalation		
LC50	Rat	> 2 mg/l, 4 Hours
Oral		
LD50	Rat	> 5000 mg/kg
Starch (CAS 9005-25-8)		
<u>Acute</u>		
Dermal		
LD50	Rabbit	> 5000 mg/kg
Oral		
LD50	Rat	> 50000 mg/kg
Skin corrosion/irritation	Not a skin irritant.	
Serious eye damage/eye irritation	Direct contact with eyes may cause temporary irritation.	

Respiratory or skin sensitization			
Respiratory sensitization	Not a respiratory sensitizer.		
Skin sensitization	Not a skin sensitizer.		
Germ cell mutagenicity	No data available to indicate product or any components present at greater than 0.1% are mutagenic or genotoxic.		
Carcinogenicity	Repeated and prolonged exp cancer.	osures to high levels of respirable crystalline silica may cause	
IARC Monographs. Overall	Evaluation of Carcinogenicity		
Attapulgite (CAS 12174-		2B Possibly carcinogenic to humans. 3 Not classifiable as to carcinogenicity to humans.	
Crystalline silica (Quartz) NTP Report on Carcinogens	5	1 Carcinogenic to humans.	
Crystalline silica (Quartz) OSHA Specifically Regulate	) (CAS 14808-60-7) ed Substances (29 CFR 1910.1	Known To Be Human Carcinogen. 001-1053)	
Crystalline silica (Quartz)		Cancer	
Reproductive toxicity	Not expected to be a reprodu	ctive hazard.	
Specific target organ toxicity - single exposure	No data available, but none e	xpected.	
Specific target organ toxicity - repeated exposure	Not classified. For detailed in	ormation, see section 16.	
Aspiration hazard	Not an aspiration hazard.		
Chronic effects	the lung disease known as sil scleroderma, connective tissu end-stage kidney disease in v respiratory conditions includir	ion of high levels of respirable crystalline silica particles can lead to icosis. Some studies show excess numbers of cases of le disorders, lupus, rheumatoid arthritis, chronic kidney diseases and vorkers exposed to respirable crystalline silica. Pre-existing skin and g dermatitis, asthma and chronic lung disease might be aggravated posure to respirable dust and respirable crystalline silica should be	
12. Ecological information	ı		
Ecotoxicity		is environmentally hazardous. However, this does not exclude the	
-	possibility that large or freque	nt spills can have a harmful or damaging effect on the environment.	
Components	Species	Test Results	
Kaolin (CAS 1332-58-7)			
Aquatic			
Acute			
Crustacea	LC50 Daphnia magi	na > 1.1 g/l, 48 Hours	
Persistence and degradability	No data is available on the de	gradability of this product.	
Bioaccumulative potential	Bioaccumulation is not expected.		
Mobility in soil	No data available.		
Other adverse effects	None expected.		
13. Disposal consideration	ns		
Disposal instructions	Dispose in accordance with a	pplicable federal, state, and local regulations. Recycle responsibly.	
Local disposal regulations	Dispose of in accordance with	n local regulations.	
Hazardous waste code	The waste code should be as disposal company.	signed in discussion between the user, the producer and the waste	
Waste from residues / unused products	Dispose of in accordance with	n local regulations.	
Contaminated packaging	Dispose of in accordance with	local regulations.	
14. Transport information			

#### DOT

Not regulated as dangerous goods.

#### ΙΑΤΑ

Not regulated as dangerous goods.

#### IMDG

Not regulated as dangerous goods.

Transport in bulk according toNot applicable.Annex II of MARPOL 73/78 andthe IBC Code

#### 15. Regulatory information

**US** federal regulations

This product is a "Hazardous Chemical" as defined by the OSHA Hazard Communication Standard, 29 CFR 1910.1200.

#### TSCA Section 12(b) Export Notification (40 CFR 707, Subpt. D)

Not regulated.

CERCLA Hazardous Substance List (40 CFR 302.4)

Not listed.

SARA 304 Emergency release notification

Not regulated.

#### OSHA Specifically Regulated Substances (29 CFR 1910.1001-1053)

Crystalline silica (Quartz) (CAS 14808-60-7)

Cancer lung effects immune system effects kidney effects

**Toxic Substances Control Act (TSCA)** 

All components on the TSCA 8(b) inventory are designated "active" or are exempt from reporting under the Inventory Update Rule.

On inventory (yes/no)\* Yes

\*A "Yes" indicates this product complies with the inventory requirements administered by the governing country(s). A "No" indicates that one or more components of the product are not listed or exempt from listing on the inventory administered by the governing country(s).

#### 16. Other information, including date of preparation or last revision

Issue date	03-February-2014	
Revision date	06-January-2020	
Version #	02	
Further information	Crystalline silica: Raw materials in this product may contain respirable crystalline silica. Exposures to respirable crystalline silica are not expected during the normal use of this product. However, actual levels must be determined by workplace hygiene testing. Prolonged and repeated exposure to airborne free respirable crystalline silica can result in lung disease (i.e., silicosis) and/or lung cancer.	
	Attapulgite: Carcinogenic to experimental animals via a route of exposure not relevant to human exposure per ACGIH.	
	Skin Sensitization Potential: This product contains an amount of Triazinetriethanol (THT) (CAS No. 4719-04-4) that is within the approved EPA regulated limits. THT can act as a sensitizer. Numerous human studies with concentrations up to 1% yielded negative (no sensitization) results. However, some results showed positive reactions in concentrations <0.5% mostly in persons with eczema.
