

HPD UNIQUE IDENTIFIER: 726970368

CLASSIFICATION: 09 51 00 Acoustical Ceilings

PRODUCT TYPE: Accessories (Acoustical Ceiling)

PRODUCT DESCRIPTION: An engineered system designed for wallboard ceilings that installs faster than traditional framing methods such as steel studs or cold-rolled channel and drywall furring channel. Available for flat or curved ceilings, arches and domes for maximum design flexibility. The Drywall Suspension System is an engineered framing system that installs faster than conventional framing methods. It is ideal for framing both interior and exterior flat ceilings and more complex shapes such as stepped soffits and coffers.

INVENTORY AND SCREENING NOTES:

Residuals/Impurities in raw materials that return a GreenScreen® score of BM-1, LT-1, LT-P1 or NoGS are displayed in the HPD when greater than or equal to 100 ppm. USG uses an outside lab to quantify potential impurities of raw materials. Analytical methods may include but are not limited to; x-ray diffraction, x-ray fluorescence, atomic absorption, ion chromatography, liquid chromatography, and crystalline silica analysis.

This section lists contents in a product based on specific threshold(s) and reports detailed health information including hazards. This HPD uses the inventory method indicated above, which is one of three possible methods:

- Basic Inventory method with Product-level threshold.
- Nested Material Inventory method with Product-level threshold
- Nested Material Inventory method with individual Material-level thresholds

Definitions and requirements for the three inventory methods and requirements for each data field can be found in the HPD Open Standard version 2.3, available on the HPDC website at: www.hpd-collaborative.org/hpd-2-3-standard
