Overview

Versico’s VersiTrim 3000 is a two-part assembly with a rigid terminator base plate and a decorative snap-on fascia cover for single-ply roofs. The fascia is fabricated from formed aluminum, .040" (1.00 mm), .050" (1.25 mm), or .063" (1.60 mm), or 24-gauge Kynar 500®-coated galvanized steel and features concealed splice plates. The 10’ (3048 mm)-long retainer base plate is 20-gauge galvanized steel with 9/32" pre-punched holes for fasteners at 12" (304.8 mm) on center. Optional retainers are available in .050" or .063" aluminum.

Features and Benefits

- Clamps membrane against the building’s perimeter like a termination bar
- Allows for the use of high-torque screws without penetrating the membrane’s top surface
- FM Global Windstorm Approvals: Up to FM 1-180 with 20-gauge galvanized steel retainer; up to FM 1-465 with .050" aluminum retainer
- Tested, certified, and warranted in wind conditions up to 155 mph
- Covered by a 25-year warranty

Quality Assurance

The fascia product is listed in the current FM Research Corporation Approval Guide approved for FM 1-135 or up to FM 1-465. VersiTrim 3000 is tested per SPRI Test Method RE-2 Pull-Off test for fascia. Fascia is certified to design pressures as indicated in the current edition of ANSI/SPRI/FM 4435/ES-1 Wind Resistance Standard for Edge Systems used with Low-Slope Roofing Systems.

Technical Services

Engineering and shop drawings, as well as long-form specifications and CAD details, are available from Versico. Product samples, detail sheets, color chips, and color charts are also available for submittal packages. For assistance with questions or submittals, contact Versico or a Versico Independent Sales.
