Nomaco Soft Backer Rod

Product #: W-SR38

SOF Rod Soft Backer Rod has an outer skin and resilient interior network of cells and helps cold-applied sealants assume the optimum hour glass shape to prolong the sealant service life. It is commonly used in applications such as expansion and contraction joints, window glazing, curtain wall construction partitions, parking decks, bridge construction, modular home gasketing and log home chinking.

- Water resistant
- Non-exuding
- Easy to use
- Use with cold-applied sealants
- Inert
- Recyclable
