DESCRIPTION

Our G-90 Galvanized Steel Lath-Lock fasteners are non-corrosive, designed for polymer-modified (PM) hard coat EIFS, insulated stucco systems and stucco systems utilizing expanded metal lath or stucco wire over rigid insulations. Metal fasteners are 1-1/4" diameter with a flat profile, positive attachment, smooth edges and four tabs that reduce spin in insulation board. Sold in box of 1,000.

- Reversed arm creates non-stacking plate
- Recessed center chamber allows flush seating of fastener
- Turned tabs allow for pre-spotting
- Fasteners can be screw-fastened, nailed or shot

Consult system manufacturer for specific requirements.
