## PermaLath 1/8in Glass-Fiber Reinforcing Lath

Product #: I-PL

PermaLath® is a nominal 1/8in-thick glass-fiber reinforcing lath designed for use with cementitious exterior wall coatings manufactured in accordance with ICC-ES AC-11 at a maximum thickness of 3/8in to 1/2in. PermaLath provides keying and continuous reinforcement for stucco used on vertical wall applications with solid backing.

- Size is 39 inches x 150 feet = 487.5 square feet
