4. Tyvek® StuccoWrap™ and Sheathing Tape

Tyvek® StuccoWrap™ from DuPont® is designed and engineered for comfort, energy efficiency and protection from water and moisture damage.

Part Code	Qty/Box	Size	Description	Contr Price/Pc	Approx Wt/Box
W-TST	36	2" x 55 yd	Sheathing Tape	CALL	18 lb
W-TSW5	9	5' x 200'	StuccoWrap	CALL	144 lb

5. Dow® Weathermate™ Housewrap—Plus

Weathermate™ Housewrap—Plus is a non-woven, non-perforated, polyolefin-based housewrap that offers exceptional tear resistance and durability. It is an effective option for builders who prefer to use non-insulating sheathing along with housewrap. When installed over sheathing, Weathermate™ Housewrap—Plus reduces costly air and moisture infiltration. It is translucent to allow a clear view of the studs and the sheathing surface during installation.

Part Code	Qty/Skid	Size	Description	Contr Price	Approx Wt
W-DWM3165	22	3' x 165'	Housewrap Plus	CALL	14 lbs
W-DWM5100	38	5' x 100'	Housewrap Plus	CALL	14 lbs
W-DWM9100	38	9' x 100'	Housewrap Plus	CALL	24 lbs
W-DWM9150	33	9' x 150'	Housewrap Plus	CALL	34 lbs

All other DOW® Weathermate™—Plus sizes are available. Please call.
 Note: Also see Weatherization Section, page 78.

6. Benjamin Obdyke Home Slicker® NEW!

Home Slicker® Stone & Stucco is the only vertically channeled rainscreen that has been specifically designed for use with manufactured stone, natural stone, stucco and masonry applications. Each roll contains the patented Home Slicker® three-dimensional matrix bonded to a fabric which prevents mortar from entering the wall cavity during cladding installation. This product installs with the fabric facing outward.

Home Slicker® Plus Typar® is a cost-effective, labor and material saving, moisture eliminating rainscreen combined with a water resistive barrier. Each roll contains the patented Home Slicker® three-dimensional matrix bonded to Typar®, the premium residential and commercial grade housewrap. The unique, vertically-channeled, three-dimensional matrix of the original Home Slicker® provides a continuous space for drainage and drying, a thermal break and pressure equalization—eliminating the threat of trapped moisture. Home Slicker® 10 is designed to meet the 10mm code requirements in Canada.
