

Energy Efficient Buildings

Increase profits and productivity
with Wind-Devil 2™ Fasteners

Increase productivity and put profit dollars in your pocket with the Wind-Devil™ 2.

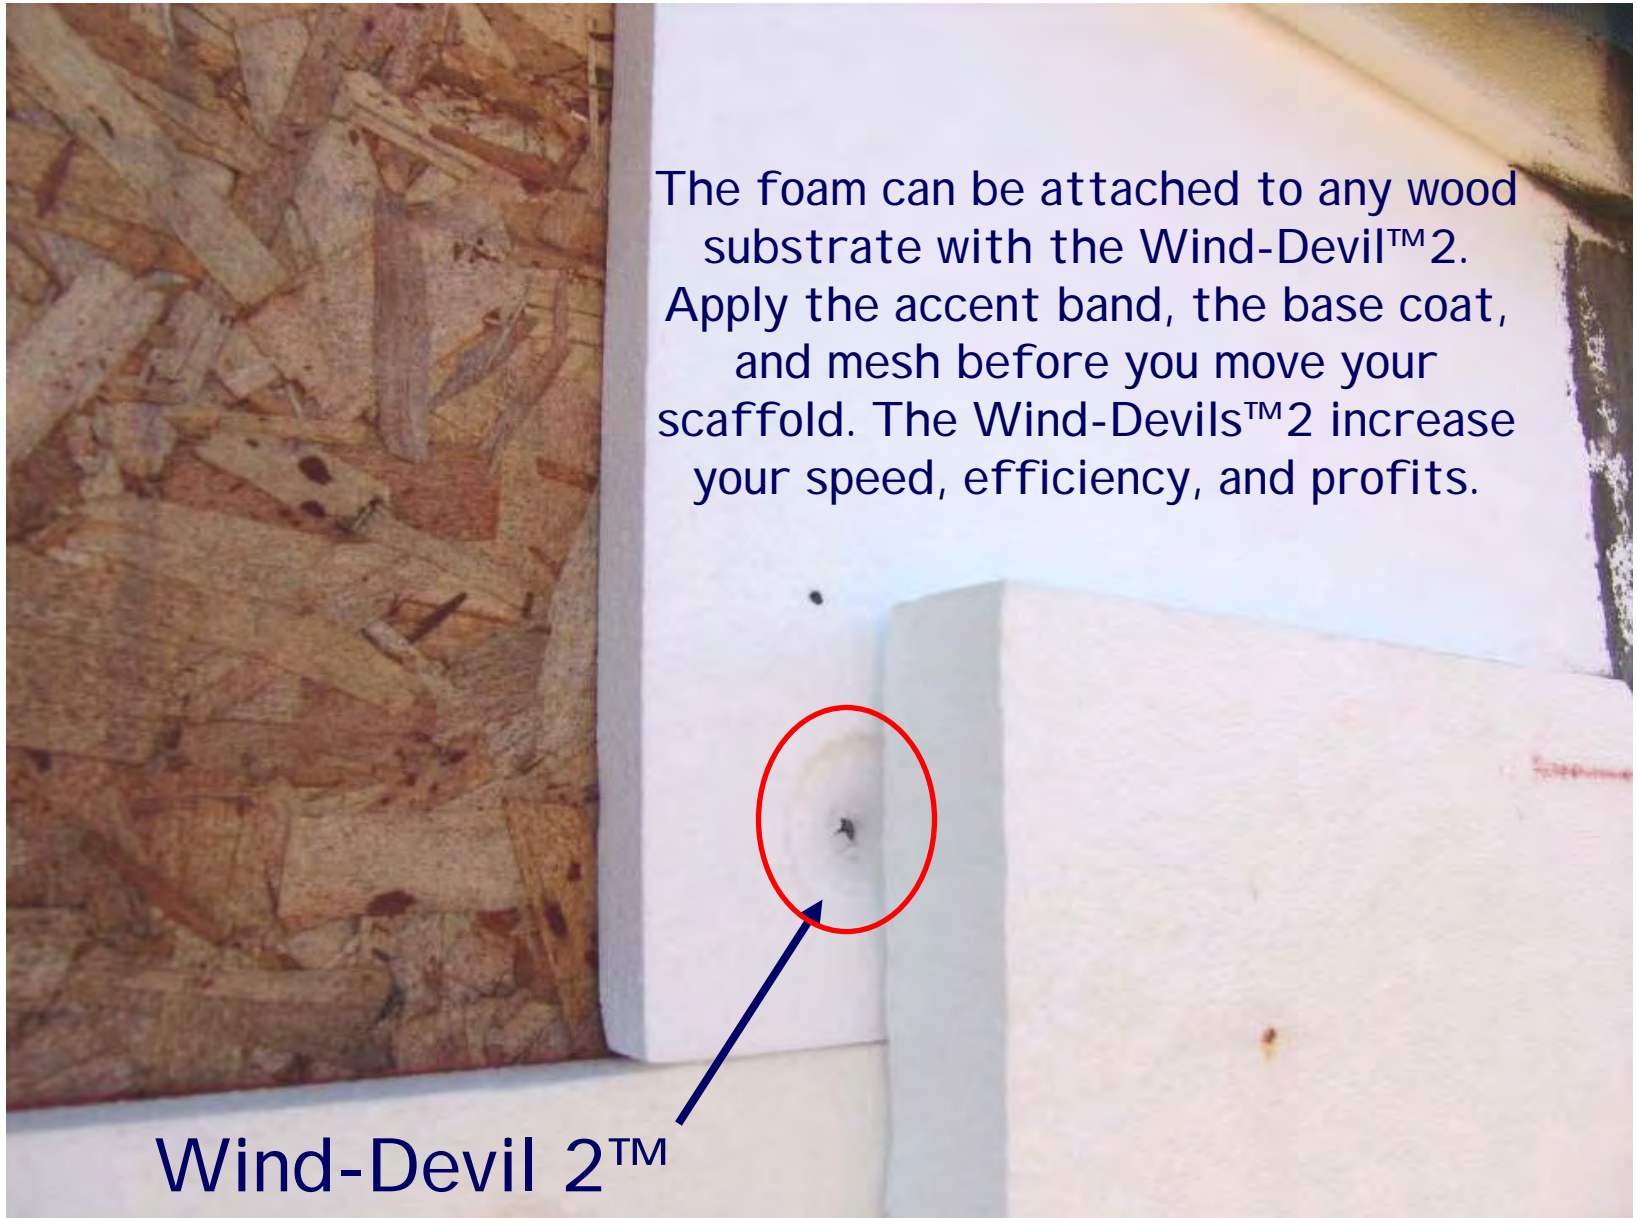

Always consult your system manufacturer for specific requirements.

The foam can be attached to any wood substrate with the Wind-Devil™2. Apply the accent band, the base coat, and mesh before you move your scaffold. The Wind-Devils™2 increase your speed, efficiency, and profits.

Wind-Devil 2™

Wind-Devil 2™ keeps you working even in the rain.

Always consult your system manufacturer for specific requirements.

Window trim can be mechanically attached directly over an approved weather barrier with the Wind-Devil 2™.

Always consult your system manufacturer for specific requirements.

Increase your productivity by hours or even days by installing the trim details with the Wind-Devil 2™ and base coat. Get more jobs done in less time. Do more work.

Always consult your system manufacturer for specific requirements.

In overhead applications the Wind-Devil 2™ defies the laws of gravity. And once again immediately apply the basecoat and mesh.
