DESCRIPTION

LIMITED INVENTORY AVAILABLE - THIS PRODUCT HAS BEEN REPLACED BY PART# [ULP-3S3](#)

Ci-LOCK® is the specified mechanical fastener for use with various Continuous Insulation (Ci) wall systems. While some Ci wall systems have transitioned to adhesive fastening methods, there are still many architects and installers that prefer the use of mechanical fastening systems to achieve maximum material attachment; the Ci-LOCK® is the go-to fastener to meet that demand.

Existing Inventory may be delivered with Green Plates; these plates are exactly the same as the White Plates, the dye color is all that was changed.
